

Complete Cleaning Solutions for Data Center Facilities

ProSource Offers Specialized and General Cleaning for Data Centers

Single Source Provider

We provide a single source for specialized cleaning services for your critical areas, as well as, daily general cleaning services for non-critical support areas like office, restrooms, and conference and break rooms. You can rest assured that our people, equipment, and processes qualify us to safely and effectively clean your data center facilities.

Critical & General Cleaning Services

Our critical cleaning services help prevent contamination related downtime that can cost thousands of dollars per minute in the critical areas of your data center like server rooms, command centers, UPS rooms, generator and battery back up rooms, mechanical rooms, telecom closets, and labs.

Our general cleaning services for data center facilities provide a complete solution by offering daily services for your non-critical areas like offices, lobbies, conference rooms, break rooms, and restrooms.

General Cleaning Services

- *Daily porter service*
- *Full service office cleaning*
- *Restroom cleaning*
- *Carpet cleaning*
- *Floor finishing*
