

## Data Center Cleaning Solutions for Multi-Site Customers

### ProSource Offers a Single Source Vendor for National Customers

#### National Coverage

ProSource is a certified data center cleaning vendor that offers national coverage for all your data center locations. Because we have local crews across the country, we can provide the coverage you need. This means that you get consistency and flexibility across all your locations with a single certified data center cleaning vendor.

#### Flexible Scheduling

Our crews can offer service 365/24/7 on all shifts to meet your needs. Our team will work with you to schedule a time that fits your planned maintenance schedule for all your locations for ease of planning.

#### Consistent Pricing

Our national account program offers consistent pricing for all shifts for multi-site customers by leveraging all your data center locations with a single source vendor.

#### Single Source for Critical and General Cleaning

We provide a single source for specialized cleaning services for your critical areas, as well as, daily general cleaning services for non-critical support areas like office, restrooms, and conference and break rooms.

#### Available Services:

- *Daily general cleaning*
- *Subfloor surface cleaning*
- *Raised floor surface cleaning*
- *Exterior equipment surface cleaning*
- *Interior server cabinet cleaning*
- *Overhead raceway cleaning*
- *Ceiling plenum cleaning*
- *Post-construction site prep*
- *Subfloor encapsulation*

We address data center manager's primary concerns for preventing business disruptions and financial loss by improving equipment reliability through offering safe and effective preventive maintenance solutions. ProSource is a trusted service provider to data centers with over 20 years of experience and expertise. We are a certified service provider by the Association of Data Center Cleaning Professionals [www.adccp.org](http://www.adccp.org).

### The right choice for mission critical data centers
