

DATA CENTER SOLUTIONS

ProSource offers a full suite of products and services to help critical facility managers improve and protect their data centers. With 25+ years of industry experience, we provide high quality products and services designed for mission critical environments.

Airflow Management

Cost-effective and energy efficient solutions that help address airflow management issues. Airflow management ensures cooling systems are as efficient and as possible.

- Floor grommets & blanking panels
- Standard airflow panels & grates
- Directional airflow panels & grates
- Airflow dampers & controls
- Airflow sensors
- Aisle & cabinet containment

Aisle Containment

Cold and hot aisle containment systems for new construction and retrofit projects. Containment helps eliminate bypass airflow and maximize existing cooling systems.

- Cold & hot aisle containment
- Prefab doors, walls & ceilings
- Custom containment solutions
- Modular infrastructure
- Integrated ceiling grid systems
- Consulting, design, and installation

Data Center Cleaning & Disinfection

Cost-effective critical and non-critical cleaning solutions for your data center that help maintain an optimal environment. Disinfecting for high-touch surfaces and electrostatic spraying for large areas.

- Subfloor & ceiling plenum cleaning
- Raised & non-raised floor cleaning
- Exterior & interior cabinet cleaning
- Post construction & site preparation
- Daily service for non-critical areas
- COVID-19 disinfecting

Power Cabling

Industry leading brands of custom power whips & cables, intelligent PDUs, and proactive environmental monitoring.

- Custom factory-built power whips
- Monitored cables & reporting
- Matching circuit breakers
- Grounding kits
- UL Listed components
- Factory testing & certification

Raised Flooring

Cost-effective refurbished raised floor panels to match your existing raised floor. Plus, we offer disposal of your old floor panels, installation, and repairs for understructure.

- Replacement raised floor panels
- Understructure components
- Ramps, rails, and floor pullers
- Structural ceiling grids
- Disposal of old flooring panels
- Installation & maintenance
