

Monitoring solutions

High-quality products for your data center.

Proven products from manufacturers you trust.

MONITORING SOLUTIONS

Monitor cooling and power capacities at server cabinets and CRAC units.

Easy to understand insights and recommendations that are proven to deliver efficiencies across your critical infrastructure.

Key Benefits

- Reduce thermal and power risks
- Optimize cooling capacity
- Minimize energy waste

Products

- Server cabinet sensors
- CRAC unit sensors
- Cloud-based software (SaaS)
- Installation and maintenance
